### Planting Trees for Food at Manchester House

A grant from The Mazda Foundation has allowed Manchester House to plant an orchard on the lawns of the Social Services Hub on 68 Aorangi Street. 6 volunteers under the guidance of Permaculture tutor Phil Stevens came together to plant the orchard which includes apples, pears, peaches, plums, citrus, berries and feijoas. The orchard is an effort to utilize an unused space into a productive food growing area to supplement our community sharing table and foodbank with more fresh food.

Fresh food is always a welcome part of our community sharing table. The trees will help provide more of this, and also, we hope be a positive example of what can be grown in an urban space.

**N.B. Requests for food emergency food assistance from our foodbank are ONLY accepted from Feilding and Districts residents. Proof required.**
